McAndrews, Held & Malloy Secures \$63.75 Million Settlement for Paxar

Women Lead Attorneys Secure Major IP Victory

CHICAGO, IL – Sept. 15, 2006 – McAndrews, Held & Malloy announced today that it has secured a \$63.75 million settlement for its client Paxar Americas, Inc., a Miamisburg, Ohio-based division of Paxar Corporation (NYSE: PXR), from Vernon Hills, Ill.-based Zebra Technologies Corporation (NASDAQ: ZBRA). The lawsuit involved eight Paxar patents that Paxar claimed were infringed by approximately 50 Zebra printers.

The suit was filed in the U.S. District Court for the Southern District of Ohio.

"This settlement is a huge victory for Paxar," said McAndrews, Held & Malloy's Jean Dudek Kuelper, the lead trial attorney on the case. "This was a complex case, involving the software, electronics and mechanics of barcode printers and about every facet of patent law imaginable. The amount of the settlement is extraordinary in view of the fact that there had been no ruling on Paxar's motion for summary judgment, but not surprising in view of the admissions that we obtained."

Ms. Kuelper's team of McAndrews, Held & Malloy attorneys included Sandra Frantzen, James M. Hafertepe, Edward A. Mas II, Matthew A. Anderson and Laura M. Personick, all of whom did outstanding work, according to Kuelper.

This is the highest known monetary settlement in a complex patent case in which both the first- (Kuelper) and second-chair (Frantzen) attorneys are women.
